Weather-Based Irrigation Controllers

Qualifying Products List

January 14, 2010

Only Smart Water Application Technology (SWAT)-tested WBICs qualify for North of the River Municipal Water District rebates. For more information about this independent, third part performance testing protocol specific to WBICs, visit: www.Irrigation.org/SWAT/Industry/la-tested.asp

Please note: Add-on devices qualify only if packaged and sold as a combined unit with a preapproved controller as listed below. All controller systems must be installed with the proper weather sensor equipment according to manufacturer specifications.
